Netcapital and Portal do not make investment recommendations and no communication, through this website or in any other medium, should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

No.

Directors, Officers and Promoters of the Company

4. The following individuals (or entities) represent the company as a director, officer or promoter of the offering:

Name

Michael Murray

Principal occupation and employment responsibilities during at least the last three (3) years with start and ending dates

Mike Murray is the Vice President of Marketing & Communications for CARROT Pass, LLC.

With a diverse background that includes more than a decade in the health care industry and experience supporting small businesses, Michael Murray is well-positioned to serve as CARROT's Vice President for Marketing & Communications.

His health care background has proven to be a great asset to the CARROT team. He is responsible for ensuring the consistent appearance and performance of the company's brands across all lines of communication, and his hands-on contributions impact all sales activities, business development, product development, marketing and public relations. Murray began his professional career at his alma mater, the University of Michigan, where he spent six years as the Assistant Director for Athletic Media Relations. He later served more than eight years as the Director of Media Relations

for the Detroit Lions, heading a staff that became recognized as one of the NFL's best publicity departments. During his tenure with the Lions, Murray was selected to assist the NFL Public Relations effort at three Super Bowls, twice serving as the NFL's Electronic Media Coordinator.

Murray left the sports arena to explore a new opportunity in health care. In his role as Director of Marketing, Advertising and Communications with Rochester Hills-based Wright & Filippis, Inc., Murray led a department that was responsible for all aspects of marketing, advertising, media relations and community outreach. Following his entrepreneurial spirit, Murray founded and served as the President of DM Communications in 2013, providing cost-effective marketing solutions and strategic planning services for small-to-mid-sized businesses. Among his early clients was Marvel Apps, parent company to CARROT Wellness. Murray left his post with DM Communications to join the CARROT team full-time in January 2015.

Name

Michael Antaran

Principal occupation and employment responsibilities during at least the last three (3) years with start and ending dates

Michael J. Antaran is the Founder and CEO of Marvel Apps LLC & CARROT Pass LLC.

When Michael Antaran founded Marvel Apps LLC in 2008, he didn't want to create a company that simply offered products and services – he wanted to provide real solutions to the challenges faced by his clients. That approach, combined with Antaran's 15 years of design, programming and leadership experience in the automotive industry, has distinguished Marvel Apps as one of the most innovative and successful mobile application development firms in Southeast Michigan. Before founding Marvel Apps, Antaran spent the majority of his professional career as one of the auto industry's leading powertrain and engine systems experts at Daimler Chrysler (1997-2008) and General Motors (2009-2012). Antaran left GM in 2012 to devote his full energies to Marvel Apps – and he hasn't looked back.

In 2014, Antaran was selected by Goldman Sachs to participate in its 10k Small Business Program in Detroit – a program he successfully completed while developing CARROT Health & Wellness, a mobile corporate wellness program that provides participants with instant gratification for meeting individualized activity goals.

Under Antaran's leadership, Marvel Apps has been recognized annually as one of Southeast Michigan's top app developers. Marvel Apps was honored as a "Top 50 Company to Watch" by Michigan Celebrates Small Business in 2015. That same year, CARROT was selected as the official tech partner for the Michigan State Fair, and Antaran was honored to serve on the Executive Leadership Board of the American Heart Association's Heart Walk campaign. In August of 2015, Antaran was one of just 16 U.S. entrepreneurs selected to participate in a special business development program hosted jointly by Goldman Sachs and Bloomberg in New York City.

In 2016, Antaran's presentation at the Crain's Detroit Business Health Care Leadership Summit allowed CARROT to take top honors as the "Most Innovative Solution to Connect Millennials with Health Care". Just one month later, Antaran was recognized by Crain's Detroit Business as one of the "50 Names to Know in Information Technology."

More recently, Antaran was selected by the New Enterprise Forum to participate in its coaching program and chosen to be a May 2017 Showcase Presenter. Antaran was also invited to present CARROT at the 2017 Michigan Growth Capital Symposium.

When he's not busy developing game-changing apps, Antaran serves as a volunteer for middle school students and mentors University of Michigan engineering students. The Metro Detroit native is a graduate of Wayne State University (BS, Mechanical Engineering) and Oakland University (MSME).

Principal Security Holders

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being “beneficially owned.” You should include an explanation of these circumstances in a footnote to the “Number of and Class of Securities Now Held.” To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Marvel Apps, LLC

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Unlike anything in the marketplace, CARROT has successfully “gamified” health and wellness, delivering three times the engagement at less than one-sixth the cost of traditional programs. CARROT’s “set-it-and-forget-it” approach uses individualized goals and instant gratification to motivate even the most sedentary members of any population. CARROT leverages the viral advantages of mobile technology to quickly onboard small employers while offering an affordable, scalable solution for the world’s largest corporations.

CARROT currently has 1 employees.

Risk Factors

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

7. Material factors that make an investment in CARROT pass, LLC speculative or risky:

1. There is always risk involved with new technology that is truly disruptive within its industry.
2. Loss of competitive edge with the Patent Application #62529265. Furthermore, we cannot assure you that the steps we have taken to protect our property rights will prevent misappropriation of our technology. To protect our rights to our intellectual property, we rely on a combination of trade secrets, confidentiality agreements and other contractual arrangements with our employees, affiliates, strategic partners and others. We may be unable to detect inappropriate use of our technology. Failure to adequately protect our intellectual property could materially harm our brand, devalue our proprietary content and affect our ability to compete effectively. Further, defending any technology rights could result in significant financial expenses and managerial resources.
3. The loss of a senior engineer for software development may harm our business. We try to mitigate this risk with full stack approach development.
4. Our future business and results of operations depend in significant part upon the continued contributions of our CEO and founder. If we lose his services or if he fails to perform in his current position, or if we are not able to attract and retain skilled employees in addition to our CEO and the current team, this could adversely affect the development of our business plan and harm our business. In addition, the loss of any other member of the board of directors or executive officers could harm the Company's business, financial condition, cash flow and results of operations.
5. We may lack the resources (funding) we need to complete tasks.
6. Be sure to understand the risks of this type of investment. No regulatory body (not the SEC, not any state regulator) has passed upon the merits of or given its approval to the securities, the terms of the offering, or the accuracy or completeness of any offering materials or information posted herein. That's typical for Regulation CF offerings like this one.
7. Neither Netcapital nor any of its directors, officers, employees, representatives, affiliates, or agents shall have any liability whatsoever arising from any error or incompleteness of fact or opinion in, or lack of care in the preparation or publication of, the materials and communication herein or the terms or valuation of any securities offering.
8. Our future growth depends to a large extent on our ability to effectively anticipate and adapt to customer requirements and offer services that meet customer demands. If we are unable to attract customers and/or retain customers, our business, results of operations and financial condition may be materially adversely affected.
9. There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for investors. Furthermore, we may be unable to register the securities for resale by investors for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, investors could be unable to sell their securities unless an exemption from registration is available.
10. Any valuation at this stage is difficult to assess. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment. In addition, there may be

additional classes of equity with rights that are superior to the class of equity being sold.

11. Our management may not be able to control costs in an effective or timely manner. The Company's management has used reasonable efforts to assess, predict and control costs and expenses. However, the Company only has a short operating history upon which to base those efforts. Implementing our business plan may require more employees, capital equipment, supplies or other expenditure items than management has predicted. Likewise, the cost of compensating employees and consultants or other operating costs may be higher than management's estimates, which could lead to sustained losses.
12. *The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.*

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering.

13. *Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.*

The securities being offered have not been registered under the Securities Act of 1933 (the "Securities Act"), in reliance on exemptive provisions of the Securities Act. Similar reliance has been placed on apparently available exemptions from securities registration or qualification requirements under applicable state securities laws. No assurance can be given that any offering currently qualifies or will continue to qualify under one or more of such exemptive provisions due to, among other things, the adequacy of disclosure and the manner of distribution, the existence of similar offerings in the past or in the future, or a change of any securities law or regulation that has retroactive effect. If, and to the extent that, claims or suits for rescission are brought and successfully concluded for failure to register any offering or other offerings or for acts or omissions constituting offenses under the Securities Act, the Securities Exchange Act of 1934, or applicable state securities laws, the Company could be materially adversely affected, jeopardizing the Company's ability to operate successfully. Furthermore, the human and capital resources of the Company could be adversely affected by the need to defend actions under these laws, even if the Company is ultimately successful in its defense.

14. *The Company has the right to extend the Offering Deadline, conduct multiple closings, or end the Offering early.*

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment up to 48 hours before an Offering Deadline, if you choose to not cancel your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you. If the Company reaches the target offering amount prior to the Offering Deadline, they may conduct the first of multiple closings of the Offering prior to the Offering Deadline, provided that the Company gives notice to the investors of the closing at least five business days prior to the closing (absent a material change that would require an extension of the Offering and reconfirmation of the investment commitment). Thereafter, the Company may conduct additional closings until the Offering Deadline. The Company may also end the Offering early; if the Offering reaches its target offering amount after 21-calendar days but before the deadline, the Company can end the Offering with 5 business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

15. *The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.*

Despite that the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the allocation of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

16. *The Securities issued by the Company will not be freely tradable until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with his or her attorney.*

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Securities. Because the Securities offered in this Offering have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the shares of Securities may also adversely affect the price that you might be able to obtain for the shares of Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Investors in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

17. *Investors will not be entitled to any inspection or information rights other than those required by Regulation CF.*

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information – there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders.

18. *The shares of Securities acquired upon the Offering may be significantly diluted as a consequence of subsequent financings.*

Company equity securities will be subject to dilution. Company intends to issue additional equity to future employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence, holders of Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the purchaser's economic interests in the Company.

19. The amount of additional financing needed by Company will depend upon several contingencies not foreseen at the time of this Offering. Each such round of financing (whether from the Company or other investors) is typically intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds are not sufficient, Company may have to raise additional capital at a price unfavorable to the existing investors. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to predict accurately the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain such financing on favorable terms could dilute or otherwise severely impair the value of the investor's Company securities.

20. *There is no present public market for these Securities and we have arbitrarily set the price.*

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant

factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

21. In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Investor is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.
22. THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS OFFERING STATEMENT AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

The Offering

CARROT pass, LLC ("Company") is offering securities under Regulation CF, through Netcapital Funding Portal Inc. ("Portal"). Portal is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.9% of the value of the securities sold through Regulation CF. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$10,000 and \$66,150 through an offering under Regulation CF. Specifically, if we reach the target offering amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

In the event The Company fails to reach the offering target of \$10,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

8. What is the purpose of this offering?

We plan to use the funding to secure a prominent presence at two national trade shows which address corporate wellness and population health. Our plan is to meet with 30 companies that have 2,000 employees and then close on six of them within six months. We have been in contact with the Health Revolution Corporate Wellness trade show, and they have expressed interest in using Carrot to be the official walking app of the show; as such, all 3,000 attendees would use Carrot to receive door prizes from any of the event's sponsors.

9. How does the issuer intend to use the proceeds of this offering?

Uses	If Target Offering Amount Sold	If Maximum Amount Sold
Intermediary Fees	\$490	\$3,241
Product Development	\$9,510	\$20,000
Marketing	\$0	\$42,909
Total Use of Proceeds	\$10,000	\$66,150

10. How will the issuer complete the transaction and deliver securities to the investors?

In entering into an agreement on the Netcapital Funding Portal to purchase securities, both investors and CARROT pass, LLC must agree that a transfer agent, which keeps records of our outstanding Class A Units (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed). Similar to other online investment accounts, the transfer agent will give investors access to a web site to see the number of Securities that they own in our company. These Securities will be issued to investors after the deadline date for investing has passed, as long as the targeted offering amount has been reached. The transfer agent will record the issuance when we have received the purchase proceeds from the escrow agent who is holding your investment commitment.

11. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering by logging in to your account with Netcapital, browsing to the Investments screen, and clicking to cancel your investment commitment. Netcapital will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

12. Can the Company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

13. Describe the terms of the securities being offered.

We are issuing Securities at an offering price of \$4.90 per share.

14. Do the securities offered have voting rights?

The Securities are being issued with voting rights. However, so that the crowdfunding community has the opportunity to act together and cast a vote as a group when a voting matter arises, a custodian will cast your vote for you. Please refer to the custodian agreement that you sign before your purchase is complete.

15. Are there any limitations on any voting or other rights identified above?

You are giving your voting rights to the custodian, who will vote the Securities on behalf of all investors who purchased Securities on the Netcapital crowdfunding portal.

16. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be canceled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer’s Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Securities

Class of Security	Amount Authorized	Amount Outstanding	Voting Rights	Other Rights
Class A Units	10,000,000	925,612	Yes	
Class B Units	212,857	70,000	Yes	
Class C Units	0	0	No	

Options, Warrants and Other Rights

None.

18. **How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?**

There are no additional outstanding securities that would limit, dilute or qualify the rights of the securities being sold in this offering.

19. **Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?**

No.

20. **How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?**

There is a risk that the majority shareholder exercises its voting rights in a manner that is not favorable to the interest of individuals who are minority owners.

21. **How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.**

At issuer's discretion.

22. **What are the risks to purchasers of the securities relating to minority ownership in the issuer?**

As minority owners, the crowd funding investors are subject to the decisions made by the management team or the majority shareholder.

23. **What are the risks to purchasers associated with corporate actions including:**

- additional issuances of securities,
- issuer repurchases of securities,
- a sale of the issuer or of assets of the issuer or
- transactions with related parties?

The issuance of additional securities will dilute the ownership of the crowdfunding investors. As a result, if we achieve profitable operations in the future, our net income per share will be reduced because of dilution, and the market price of our common stock, if there is a market price, could decline as a result of the additional issuances of securities.

If we repurchase securities, so that the above risk is mitigated, we may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our common stock, if any, would decline.

A sale of our company or of all the assets of our company may result in an entire loss of your investment. We cannot predict the market value of our company or our assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors.

We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. We anticipate that if we have any transactions with related parties, that they will be on an arms-length basis.

24. Describe the material terms of any indebtedness of the issuer:

Creditor(s): FundingBox
Amount Outstanding: \$12,000
Interest Rate: less than 0.1%
Maturity Date: February 2, 2019
Other Material Terms: Revolving line of credit

Creditor(s): Huntington Bank
Amount Outstanding: \$33,000
Interest Rate: less than 0.1%
Maturity Date: October 1, 2020
Other Material Terms: Revolving line of credit

25. What other exempt offerings has CARROT pass, LLC conducted within the past three years?

Date of Offering: 04/2018

Financial Condition of the Issuer

27. Does the issuer have an operating history?

Yes.

28. **Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.**

In 2014 and 2015, the initial investment from private individual investors gave CARROT pass, LLC a valuation of \$1,683,333. At the time, CARROT was being developed without any revenue.

In January 2016, CARROT pass, LLC launched as a wellness program for organizations and achieved revenues of \$90,802 by the end of the year. At the end of 2016, CARROT pass, LLC had 3 clients.

In the year ended December 31, 2017, CARROT pass LLC grew revenues to \$154,805 and worked with 24 employers. In mid-October of 2018, we have recorded revenues of more than \$160,000.

We have determined that our largest operating margin occurs with entities that have 2,000 employees or less. We continue to grow by simply marketing at a grass roots level and word of mouth. The money we raise on NetCapital is designated to fund the growth of CARROT over the next 2 years by hiring sales resources. We only have limited access to other capital.

Our operating expenses totaled \$115,323, and our net loss amounted to \$137,701 in the year ended December 31, 2017. Our operating expenses primarily consisted of non-cash software amortization expense of \$74,924 and software development costs of \$9,268

Our operating expenses in the year ended December 31, 2016, totaled \$109,292. Our operating expenses primarily consisted of amortization of capitalized software of \$70,174 and software development costs of \$13,601.

In the years ended December 31, 2017 and 2016, we recorded net cash used by investing activities of \$47,275 and \$131,088, respectively, for software development costs.

In the years ended December 31, 2017 and 2016, we recorded net cash provided by financing activities of \$134,936 and \$66,676 respectively. Member contributions accounted for \$84,431 and \$66,676 in 2017 and 2016, respectively. In the year ended December 31, 2017, we also had loan proceeds of \$50,505.

Net cash used by operating activities amounted to \$84,590 in the year ended December 31, 2017 as compared to net cash provided by operating activities of \$59,259 in the year ended December 31, 2016.

We believe that the funding we are seeking will allow us to significantly increase our sales and marketing efforts. At the time of this offering we have approximately \$15,000 cash in our checking account and \$37,000 in accounts receivable. We believe we can raise approximately \$50,000 from known sources, if we need additional capital.
