RELEASE DATE:

October 24, 2022

AIEDC and BLOCKCHAIN LABORATORIES Signed a Partnership Agreement

The Parties will coordinate their efforts as it corresponds to common goals in the field of Research and Development in Artificial Intelligence for MRV Processes relating to positive ecological impact and lowering CO2 levels, as well as innovation in Smart Contracts, Tokenization, DeFi, and Decentralized Data, for the Small and Midsized Business Communities throughout the World.

Blockchain, and Web 3.0 Protocols will enable New "**Smart Modes**" of work and learning in the massive expansion of Ecommerce and the Virtual Economy, as well as helping companies throughout the World, **Reduce their Risk to the Acceleration of --- Climate Change**. (i.e. Hurricane Ian, etc.....)

Additionally, the partnership will explore **Web 3.0 Protocols** in the voluntary **Carbon Markets, Forest Conservation**, and **ESG Digital Assets** using A.I. for Measuring, Verifying, and Reporting.

Blockchain, and Web 3.0 Protocols are also designed to categorize and store data without the need for any central points of control, which is perhaps the most interesting feature of the Spatial Web, that is used in Distributed Ledger Technologies, (DLT).

The rise of Fintech and Virtual Payments, Such as, Mobile Payments is already changing the nature of the Global Economy. This ongoing merger between our physical and virtual worlds is already evident in the dramatic growth of Online Gaming, Digital Twin Architectural Design, and Augmented and Virtual Reality (AR/VR), utilizing (5G) Communications.

About AIEDC

The Artificial Intelligence Economic Development Corporation (AIEDC), is an **A.I. as a Service (AIaaS) Provider with A.I. Research, and Product Development**, as well as Digitization Services for the Front & Back Office for Small & Midsize Businesses, such as A.I. / 5G Mobile Commerce Services.

All of our services are Powered by **M.I.N.D** ® --- Our **Machine Intelligence NeuralNetwork Database** via Machine Learning and other Data Analytics with Sequential Decisions Based on Algorithmic Probability and the Markov Decision Processes (MDP), as well as other Algorithmic Protocols in A.I. and soon to be (AGI).

About BLOCKCHAIN LABORATORIES

Blockchain Laboratories **is building Web 3.0 Software and Systems** in high value markets using innovative carbon neutral Blockchain and DLT networks. Blockchain Laboratories is working on DeFi, dApps, and Protocols in the voluntary carbon markets, forest conservation, real estate, and advertising. Our founder developed **“ESG NFTs”** and was one of the first to issue digital assets representing rights to future CO2 sequestered from perpetually conserved forest land.

Our disruptive **Web 3.0 platforms** have the potential to rapidly scale funding for things like ecological restoration, and also bring radical transparency to things like the voluntary carbon markets. Blockchain Laboratories is at the forefront of innovation in smart contracts, tokenization, and decentralized data. As a leading innovator in ESG Digital Assets, we have a competitive advantage with our technology licensing model.
