RELEASE DATE:

September 22, 2022

AIEDC ATTENDS "FILIPINO AMERICAN CHAMBER OF COMMERCE OF OC, GO GREEN TECHNOLOGY CONFERENCE & EXPO".

The event was held in Anaheim, California, and featured several speakers, with representatives from US Bank, City of Hope, Metropolitan Water District, Southern California Gas, and Southern California Edison.

AIEDC's CEO discussed with Speakers and Panelists, as well as Companies and Organizations about the integration of **(5G), Artificial Intelligence (A.I.) and Web 3.0**, the third generation of the Internet utilizing Mobile Apps to connect distributed content and data to A.I. driven search and analysis endpoints which are rooted in Machine Learning (ML).

Mr. Johnson also noted that ***"Intelligent A.I. Applications will be able to manage, organize, and create meaning from data enabling a robust transformation in the social organization of the workplace"***.

Further discussions at the conference center around, how "Digitization" Remains Elusive for Small & Midsize Businesses, while digitization is a consensus solution, access to the technology and the technology skills gap continue to prevent digitization efforts at scale.

A recent McKinsey & Company report says that Digitization is Inevitable, ***"Looking toward 2023, most companies will need to build New Digital Businesses to stay Economically Viable"***.

This is a significant **(PAIN POINT)** - because **(COVID-19)**, and **(CLIMATE CHANGE)**, have disrupted Small & Midsize Businesses the most throughout the World.

AIEDC is focused on the Members of the Filipino American Chamber of Commerce of Orange County, as well as to the more than **300,000 Businesses located in Orange County, California** --- with it's **A.I. as a Service (AIaaS), providing A.I. Research, and Product Development**, as well as Digitization Services for the Front & Back Office for Small & Midsize Businesses, such as **A.I. / 5G Mobile Commerce Services**.

About AIEDC

The Artificial Intelligence Economic Development Corporation (AIEDC), is an **A.I. as a Service (AIaaS) Provider with a 5G - Cloud Mobile App Maker that will use Machine Learning to help small and midsize businesses create their own (IOS & Android) Mobile Apps with No-Code or Low-Code** --- so they can engage and service their Customer Base, as well as provide Front & Back Office Digitization Services for SMB's.

About The Filipino American Chamber of Commerce of Orange County.

The Filipino American Chamber of Commerce of Orange County, is a non-profit organization for Filipino-American entrepreneurs, professionals, and students that are committed to promoting domestic and international business interests for its members by providing a host of wide-ranging benefits, services, programs, workshops, and training. Serving as the backbone for the growth of our members' businesses and their respective communities, our mission is to:

- Be the voice of businesses in the Filipino-American community and promoting prosperity in the region.
- Provide timely, relevant, and valuable training and networking opportunities that promote wellness, fellowship, teamwork, leadership development, and entrepreneurship.
- Champion favorable economic environment and high quality of life through advocacy to foster a dynamic business climate in which our members can grow and prosper.
- Promote Orange County as the ideal destination for establishing and growing businesses.
