#### RELEASE DATE:

January 19, 2022

### **AIEDC and SAPIENS NETWORK Sign a Partnership Agreement**

*The Parties will coordinate their efforts as it relates to the common goals in the area of Democratizing Artificial Intelligence, as well as Artificial Intelligence Research and Development, in the specific area(s) of a Decentralized A.I. Blockchain Platform that will utilize Smarts Contracts, and User-Controlled Personalized A.I. Agents.*

The agreement will incorporate the Partnerships of **AIEDC and Lodz University of Technology, as well as - the Partnership with AGI Laboratory.**

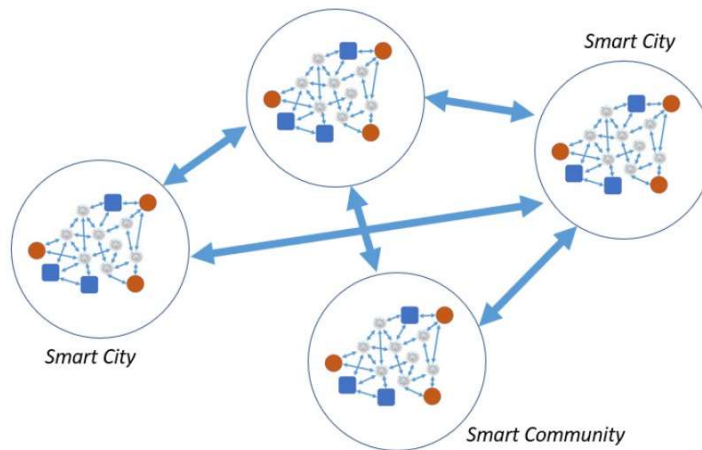

AIEDC and the SAPIENS NETWORK will be focused on the following area(s), to Democratize Artificial Intelligence to the Benefit of Everyone.

# Sapiens' Ecosystem - from Users and Businesses to Smart Communities and Smart Cities

The Sapiens-Ecosystem can be expanded to include Smart Contract-Based Services within a hyper connected Network of Businesses, Organizations, Rural Areas, Smart Communities, Smart Towns, and Smart Cities, where each entity has its own Data Governance, A.I. Assistant, and Digital Connections, as well as the ability to engage with other Entities in the Ecosystem.

## Sapiens' ecosystem – from users and businesses to Smart Communities and Smart Cities

Expand Sapiens to also include smart contract-based services within hyper connected network of families, small groups, businesses, organizations, Rural Areas, Smart Communities, Smart Towns, and Smart Cities, where each entity has its own data and AI Assistant that can engage with one another.

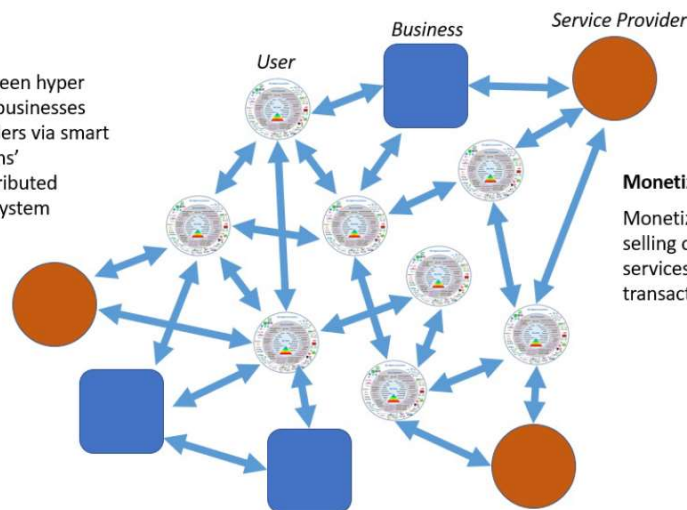

## Monetization examples within Sapiens' Ecosystem

Monetization within Sapiens Ecosystem can for example happen through User-Controlled Advertising, Selling of Anonymized Data and Services, Subscriptions and Transactions between Hyper Connected Users, Businesses, and Service Providers through Smart Contracts on the Sapiens' Decentralized Distributed Ledger-Based Ecosystem.

## Monetization Examples within Sapiens' ecosystem

### Transactions

Transactions between hyper connected users, businesses and service providers via smart contracts in Sapiens' decentralized distributed ledger-based ecosystem

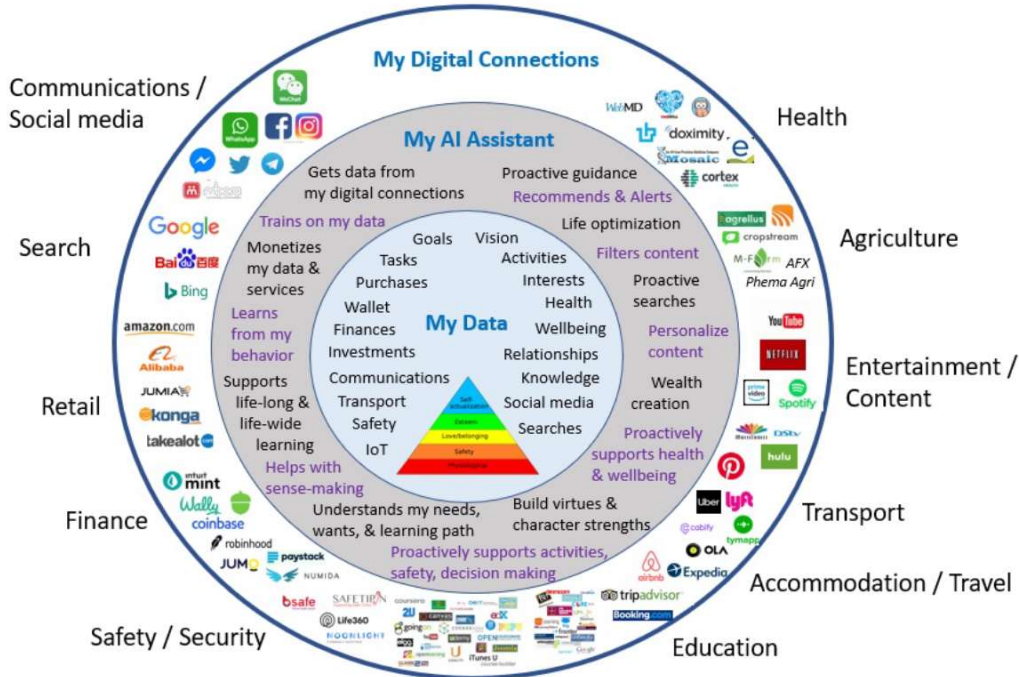

### Monetization

Monetization via advertising, selling of anonymized data and services, subscriptions and transactions – all user controlled

# Sapiens within Multi-Sector Digital Ecosystem

Sapiens connects to other Systems and Services within a Multi-Sector Digital Ecosystem.

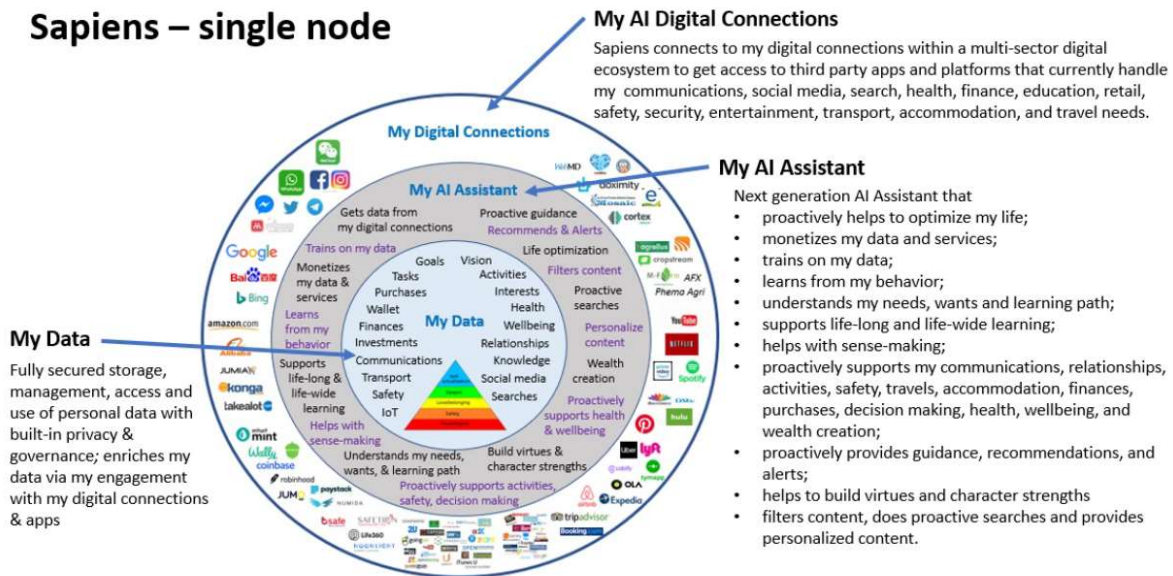

## Sapiens within multi-sector digital ecosystem

## Sapiens for the Individual User

A single node of Sapiens for an Individual user being supported from a Data Governance, A.I. Assistance and Digital Connections Perspective.

### Sapiens – single node

## **About AIEDC**

The Artificial Intelligence Economic Development Corporation (**AIEDC**), is an **A.I. as a Service (AIaaS) Provider with A.I. Research, and Product Development**, as well as Digitization Services for the Front & Back Office for Small & Midsize Businesses, such as A.I. / 5G Mobile Commerce Services.

All of our services are Powered by **M.I.N.D** ® --- Our **Machine Intelligence NeuralNetwork Database** via Machine Learning and other Data Analytics with Sequential Decisions Based on Algorithmic Probability and the Markov Decision Processes (MDP), as well as other Algorithmic Protocols in A.I. and soon to be (AGI).
